

# Safety Protocol for the Conduct of Activities to Prevent the Transmission of COVID 19

## Stolli's Divebase Tamariu

### RISK IDENTIFICATION PLAN AND GENERAL MEASURES TO BE ADOPTED

1. Activities are planned in such a way as to ensure the safety distance established by the health authorities (2 meter); if this is not possible, alternative measures shall be taken to avoid the risk of infection by contact..
2. Disinfectant solution for hand washing is facilitated. We provide hygiene guidelines with complete, clear information about the hygiene rules to be used, helped by posters..
3. Wash your hands with hydroalcoholic gel before touching any installation or equipment
4. First aid kit completed with a thermometer. Report results of temperature control by online questionnaire. Consult Health Questionnaire -it is part of the online registration form.
5. Everyone should bring and use their own personal protection equipment before and after the dive (recommended mask FFP2 + Gloves)
6. We disinfect after each shift of activity the objects, equipment, facilities and the boat. To do this we use disinfectants with virucidal activity that are on the market and have been authorized and registered by the Ministry of Health, applied with a cloth or disinfectant wipes.
7. Reduction of the Capacity to 50% of the Permitted Capacity. Limited use of the facilities or public spaces. – We have conducted a calculation of maximum occupation.
8. Please communicate if you are living together or are part of the same family. Accompanying persons are not allowed - only those who carry out the activity. This also applies to the boat - Gabriela!
9. The use of the toilet is only allowed in cases of emergency
10. The use of the facilities will be limited and marked as private or restricted access with signs
11. **CANCELLATION CONDITIONS:**  
Once the reservation is confirmed, if symptoms compatible with COVID-19 are presented through the COVID-19 Health Questionnaires, the reservation will be suspended and the amount paid will be transferred to a voucher valid for 1 year.

### **SAFETY RULES BEFORE START OF THE ACTIVITY:**

1. Check that you have all your documentation up to date (certification card, insurance and medical certificate).
2. Fill in the online registration form on our website before arriving at the center
3. Those who have personal diving equipment should clean and disinfect their equipment at home before coming to the divebase. You can follow the following DAN EUROPE protocol ([https://www.daneurope.org/c/document\\_library/get\\_file?uuid=bb0d7f71-5447-4f11-ab63-0f2bc5180b3f&groupId=10103](https://www.daneurope.org/c/document_library/get_file?uuid=bb0d7f71-5447-4f11-ab63-0f2bc5180b3f&groupId=10103))
4. Whenever possible, each diver should bring their own mask and regulator
5. The equipment is kept separate from other customers in assigned bags or boxes
6. Don't bring unnecessary personal items.
7. Those who do not comply with the required prevention and hygiene-sanitary regulations may not carry out the activity.

### **DURING THE ACTIVITY AND THE TRANSPORT ON THE BOAT**

1. Wear a mask when the safety distance of 2 meters cannot be maintained. The use of gloves is recommended.
2. Upon arrival, wait in the outdoor area, the staff will contact you
3. The rental equipment requested in the reservation will be available clean and disinfected in the places indicated. The rental equipment is delivered exclusively by the staff of the centre. If you wish, there is the possibility to buy your own mouthpiece
4. Objects and Personal Equipment will be under the control of the owner at all times and located within your "assigned space". After use, they will be returned to the owner's bag or box. Rinsing and disinfection should be carried out at home.
5. Each diver is responsible for the assembly, testing and transportation of his or her equipment
6. After the test, the second stages are disinfected
7. The equipment must not be manipulated by other people
8. The Buddycheck is performed without touching the buddy's equipment
9. The divers are boarding the boat and/or going to the entrance of the housereef already fully equipped.
10. Once the dive mask and regulator are put on they shall not be removed until the end of the dive and return to their place on the boat or pier (after climbing the ladder)
11. Do not use the oral inflator of the jacket
12. We provide the appropriate means to prevent fogging of the mask. Do not spit!
13. On the surface, both before and after the dive, the mask and regulator should be kept on as long as possible.
14. In an underwater out of air situation provide your octopus and not the main regulator to help your buddy.
15. Staff instructions and all measures communicated for the correct development of the activity have to be respected at all times and in accordance with the safety protocol for the carrying out of activities aimed at preventing the spread of COVID-19.

**AFTER THE ACTIVITY**

1. Each diver disassembles his equipment by himself
2. Rental equipment is delivered to staff in containers. The cleaning and disinfection of the rental equipment is carried out by the staff
3. Whenever possible, private equipment should be taken home.
4. Reduce the time spent at the Centre
5. Do not fill out your logbook at the Divebase
